

# PLAY Project Consultant Certification Online Course Overview

PLAY Project's Online Certification Course is a 6 Week/Unit course that is step #2 in PLAY Project Certification process.

This course's learning objective is to prepare the PLAY Project Consultant Trainee to fully master the PLAY Project approach.

Live Sessions held following Units 2, 4, & 6

## Overview

Estimated  
Time

### Unit 1: Introduction & Orientation

10 Minutes

This unit will name the goal of certification training, list the weekly course activities, describe the topics for each unit of the online course, and give examples of course resources and support.

### Unit 2: Written Reports

Live Session

2.2 Hours

Learn to give effective, parent-friendly written feedback, so you can prepare caregivers to help their young child with autism move up in their functional development.

### Unit 3: Assessments

1.9 Hours

This unit will introduce you to a variety of tools for assessment of the child, the caregiver, and for Teaching PLAY trainees, the classroom environment.

### Unit 4: Implementation

Live Session

1.1 Hours

List the various settings and delivery models for PLAY Intervention and Teaching PLAY, learn policies and expectations of PLAY Implementation, and the resources available to you.

### Unit 5: Supervision

30 Minutes

This unit will explain the supervision process, including explaining supervision tasks, their requirements, and how to complete them.

### Unit 6: Administration

Live Session

25 Minutes

This unit will describe a PLAY Project License, introduce marketing and outreach tools for the trainee and organization, and help plan outreach and implementation for the trainee.
