

Licensing Benefits Details and Policies

The PLAY Project provides a high quality, evidence-based autism intervention program to organizations and professionals throughout the world. We take pride in the excellence of service our licensed providers offer their communities. We license all organizations that provide the PLAY Project to ensure that children and families received consistently high quality services. The PLAY Project license provides benefits to both the organization and the individual professional, as detailed below.

Permission to use PLAY Project Name

The PLAY Project name has received formal trademark registration from the US Patent & Trademark Office. Professionals and organizations who implement the PLAY Project autism intervention model have permission to use our name, logo and program materials under our license agreement.

Listing as a provider on playproject.org
