

# The PLAY Project Now Offering *TelePLAY*®! Online Autism Service for Families

**TelePLAY is the innovative *online* application of The PLAY Project's autism intensive intervention program for young children with autism and their families.**

**PLAY Project Consultants are trained to use video analysis and caregiver coaching to help parents implement the evidence-based PLAY Project principles, methods, and techniques at home in a playful way.**

## **Benefits of TelePLAY:**

- **Uses a secure video conferencing platform to provide virtual home visits with complete security and privacy**
- **Eliminates the need to travel and can serve families anywhere in the country!**
  - **To find a PLAY Project "TelePLAY" Consultant go to:  
[www.playproject.org/locations](http://www.playproject.org/locations)**
- **Offers more flexibility to schedule appointments**
- **Empowers caregivers to engage with their child during the visit through online video coaching**
- **Decreases cost of services for families due to less missed work and wage loss**
- **Decreases risk of potential illness due to having a home visitor**
- **Health insurance may or may not cover PLAY Project costs**
  - **For cost information, contact your PLAY Project Consultant**
