"The best play-based parent training program in the country for young children with autism. Evidence based, compassionate and beneficial for parents and participants."

Stuart Brown MD, National Institute for Play

Professionals - Advance your ability to help children with autism

Parents - Connect with your child in a fun way, help them reach their full potential

Administrators - Positively impact your system of care

**This workshop is the first step in pursuing
The Certified PLAY Project Consultant Credential**

*"The PLAY Project was demanding but it **really changed** my approach to autism. I was able to incorporate the principles and methods of PLAY into my clinical practice right away. I had to shift my focus from just doing the therapy myself to **teaching parents how to do intensive intervention** and it worked! My parents love the program and the kiddos have made amazing progress."*

—Julie B. SLP

Learn to playfully engage children with autism in an evidence-based course that is fun and practical. This course has over 10 hours of content to be completed at any time over **3 weeks** with two live sessions to answer your questions in person.

**Additional Exclusive Live Session for Medical Rehab Providers*
